

## **MEMORANDUM OF UNDERSTANDING (MoU)**

**BETWEEN**

**COMBINE FOUNDATION**

**AND**

**Islamian Computing Society**

**(International Islamic UNIVERSITY DEPARTMENTAL SOCIETY)**

### **Background**

**Combine Foundation** is a non-profit organization (NPO) focused on educational advancement and future-ready skill development. The Foundation conducts various courses and webinars in emerging fields such as Python, Web Development, Artificial Intelligence (AI), Shopify, WordPress, and other modern technologies.

**Islamian Computing Society** represents students interested in computing, technology, and digital innovation at the **International Islamic University Islamabad (IIUI)**. The society aims to enhance technical, professional, and leadership capabilities of its members through seminars, workshops, coding competitions, gaming events, and skill development sessions in emerging technologies such as Artificial Intelligence (AI), Web Development, Cybersecurity, and Programming. This collaboration is established to promote practical learning opportunities, industry engagement, and professional growth among students through joint educational and technical initiatives.

## **Purpose of the MoU**

This MOU outlines the mutual intention of **Combine Foundation** and **Islamian Computing Society** to collaborate in areas related to technical skill development and educational empowerment. The primary purpose is to provide selected students with free or discounted access to future-oriented courses while promoting professional growth within the student community.

## **Objectives**

1. To promote future-aligned technical education among IT, CS & SE related students.
2. To provide free or discounted access to selected Computer students (based on merit such as GPA and/or test performance).
3. To support awareness and outreach of Combine Foundation's educational initiatives.

## **Areas of Collaboration**

Both parties agree to collaborate in the following areas:

- Offering merit-based free or discounted access to Combine Foundation's courses and webinars.
- Promoting skill development in Python, AI, Web Development, Shopify, WordPress, and other emerging technologies.
- Conducting joint awareness and engagement initiatives for students.

## **Responsibilities of Combine Foundation**

- Provide free or discounted course access to selected Islamian's students.
- Conduct and manage technical courses and webinars.
- Provide course-related guidance and necessary learning support.

Provide E-Certificates for Webinar's.

## **Responsibilities of Islamian Computing Society**

- Facilitate fair selection of students based on agreed merit criteria.
- Promote Combine Foundation's courses through at least two (2) reels and one (1) social media post.
- Share relevant promotional content within its student network.

## Duration and Termination

- This MoU shall remain in effect for One (01) year from the date of signing and may be extended upon mutual agreement.
- Either party may terminate this MoU with 30 days' written advance notice.

## General Provisions

- This MoU does not create any legally binding financial obligation but serves as a framework for goodwill cooperation and mutual understanding.
- Any specific activities requiring detailed planning shall be documented separately if required.

## Signatories:
