About Our Events / Our idea About Events

Our main idea or motive about events is to motivate, educate, and empower youth and people by providing them with opportunities for learning, leadership, innovation, and social contribution. With the help of Youth Leadership Program, Kitchen Garden Festival, Future Leaders & AI Summit, and Environmental Plantation Drive programs, we can engage youth leaders, students, professionals, volunteers, and members of the community towards making a positive difference. We encourage youth to be better leaders, live sustainably, be aware of technology, respect the environment, and engage themselves actively in society through our events. Through all our events, our focus is to develop future ready and responsible leaders of Pakistan.

Upcoming events

Closing ceremony of Youth Leadership Program

Our ceremony for closing the Youth Leadership Program is a way to celebrate the growth, progress, and commitment of the young leaders and volunteers, who have successfully completed their leadership journey.
